OUR MACHINES

Trans Pack machines for every product

Choose the machine that suits your product, pack style and budget. Each one comes with installation, spares and service from our team.

Vertical form fill seal (VFFS)

High speed, accurate filling for powders, granules, snacks and liquids.

- ✓ **Pillow, gusseted and quad-seal packs**

Horizontal flow wrap

Pillow packs with excellent sealing for biscuits, bakery items and confectionery.

- ✓ **Single items or grouped packs**

Weighing & filling, multihead weighers

High accuracy and consistency for snacks, grains, pulses and powders.

- ✓ **Less product giveaway**

Pouch packing machines

Ready-made pouch filling and sealing for retail packs.

- ✓ **Stand-up, zipper and flat pouches**

Sealing machines

Strong, clean seals for pouches and bags.

- ✓ **Band, impulse and vacuum sealers**

Coding & marking

Batch number, date and price marking on every pack.

- ✓ **Inkjet, thermal transfer and laser**

Not sure which machine you need? Talk to our team and we will point you to the right one.
